Camper Rules

Listen to your counsellors!

Participate in all activities

Stay within designated camp boundaries and within sight of a counsellor.

If you hear ANY whistle blast – look to your counsellor for instructions.

Keep your hands to yourself and be kind to others!

DRINK WATER!

Follow waterfront rules, and listen to your lifeguards.

Do regular tick checks.

Leave our wildlife wild!

If you get lost, STAY PUT AND MAKE NOISE!

Camper Code of Conduct

"I agree to comply with all safety precautions and rules while at Eco-Adventure Camp. I will listen to my counsellor and the instructions they give for each activity, and will ask if I need clarification of any of these instructions. I will approach all activities in a mature manner and promise to try each activity. I will treat fellow campers and counselors with respect at all times."

Swim Test

All campers and Leaders in Training must successfully complete the swim test to be permitted to swim without a lifejacket or PFD within the designated swim area. All campers are encouraged to attempt the test during the first swim period of the session. Unsuccessful participants are welcome to reattempt the test during the next swim period. Campers can choose to not take the test and wear a PFD during swimming times if they choose.

EAC swim test includes:

- 50 m distance swim (The distance swim is normally three lengths between one the edge of the roped-in swim area to the other side of the swim area.)
- Tread water for one minute
- Put a lifejacket or PFD on while treading water (optional)
- Climb onto the raft and roll into the water
- Swim back to shore

Putting a lifejacket on while treading water is recommended but optional (campers will not fail the test if they cannot complete it).

Ticks

The biodiversity at Elbow Lake includes the black-legged deer tick. These ticks can carry Lyme disease. We recommend long pants tucked into socks to protect against bites. You will also want to pack a bug repellent effective against ticks to spray on campers pants and shoes. We recommend one containing "picaridin," a common brand is called PiACTIVE, but others are also available at local stores.

Cancellation Policy

No refunds will be given for cancellations received later than one week before the start of a session. This includes "no-shows" or campers who attend only part of a session for any reason, including illness. Requests received with more than one week's notice will be refunded, minus the \$50.00 non-refundable deposit per camper per session.

Cancellations for Family Night cabin bookings will not be refunded with less than one week's notice. Otherwise, they will be refunded in full (\$65.00).

Service Agreement

We are committed to providing each camper and their family with a quality summer camp experience. It must be understood that camp is part of a community made up of parents, campers, and staff and there are requirements asked of each of these parties. These requirements must be met in order to maintain the safety and satisfaction of everyone involved.

Those who wish to put their needs above the needs and safety of others within our community are not welcome. Verbal abuse, operating a vehicle in an unsafe manner while on camp property, requesting exemptions to camp rules, making demands that are outside of our advertised services, and general behaviour that prevents us from serving others within our community cannot be permitted to occur.

We are eager to hear from you if you feel that we are not living up to the services that we have agreed to provide. We will make every effort to correct mistakes that are made. However, this process cannot jeopardize the safety of others. We reserve the right to terminate our services and future services at any time.
